CONFERENCE THEME

Our theme this year is Dream Big.

There are various types of dreams - memories, middle of the night random brain activity, and God implanted dreams for the future.

I want to look at the big picture of what dreams for the future we all hold and take time to share, consider and pray together into these. So, our main guest speakers will be YOU.

I would like everyone coming to consider in advance what are the dreams in your heart and for as many as possible to take time to share them with us all.

Dreams can stay as just that unless we position ourselves for them to be fulfilled, so as we share together we will draw on collective wisdom from above on what part we need to play to see them become a reality.

Come ready to be brave and share those wild passions, daring to believe that with God all things are possible.

I'm excited to hear what's in your heart and to catch the breath of the Spirit regarding our future as individuals and a family.
